**Seminar**

**“Why should I consider upgrading from XP ?”**

- **Windows XP is going to be 13 years old !**

**April 2014 all security updates will stop from Microsoft, that does not mean that you PC stops working but you should be cautious using it online.**

# The END of Microsoft Windows xp Seminar

## “More reasons to upgrade from XP

- **Virus and Spyware / online attacks**
- **No driver support** (printers, scanners, etc)
- **New software will not run** (quickbooks, office 2013)
- **Does not support new CPU features** (reduced performance)
- **Business use | No longer meets security requirements** ( Hippa, PCI...)

**The END of**   
Microsoft  
**Windows xp**  
**Seminar**

# **Stuck with XP for now ? This might help...**

- **Use CHROME instead of IE**
- **Keep Virus Protection up to date**
- **Do not buy new hardware (printers,etc)**
- **Backup you data often**
